6.170 Final Presentation

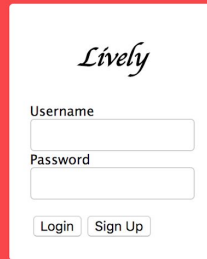

Why use Lively?

Designed for newly diagnosed diabetes patients

Creates an optimized pill itinerary around your daily activities, to make your life easier.

Educates yourself about the side effects of certain pills.

Demo

The image shows a login and sign-up form for a service named "Lively". The form is centered on a solid red background. It features the "Lively" logo at the top, followed by input fields for "Username" and "Password". At the bottom, there are two buttons: "Login" and "Sign Up".

Major Design Decisions

Having the user select drugs (with constraints of each drug in the database)

Remove “occupation/job” as constraint

Showing an itinerary instead of a calendar view for when to take pills.
